

The link to access the change password page is given in Employee portal.

On click of LDAP Forgot User Password link you will be redirected to following page

Enter Your User name (CPF Number) and click on send OTP button. You will receive OTP on your registered mobile number.

Enter OTP → New password → Confirm password → Click on Save.

Follow the rules for the password composition given on the change password page.

***This functionality is available only on MSEDCL network/VPN.**

**** <https://ssoportal.mahadiscom.in/ChangePassword/Index> can be used on the VPN for Non-Employee LDAP users**
